

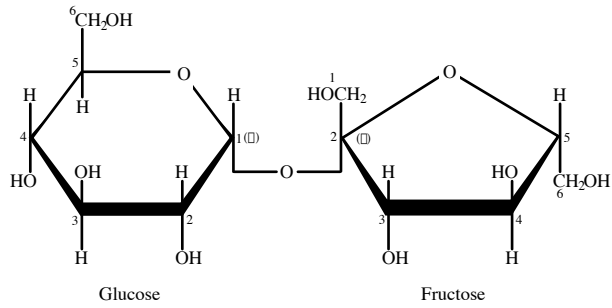

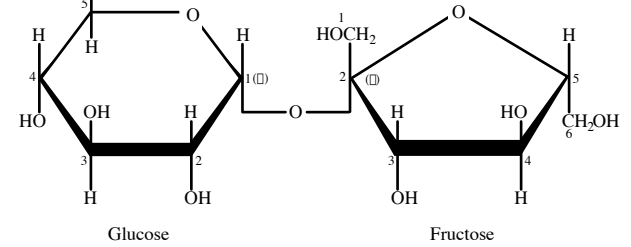

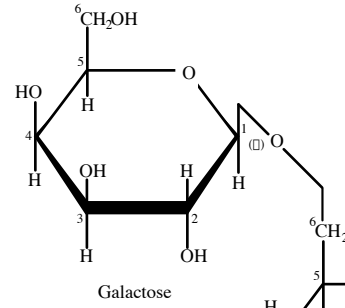

**Figure 4. Summary of Compounds Tested as Substrates for Invertase.**

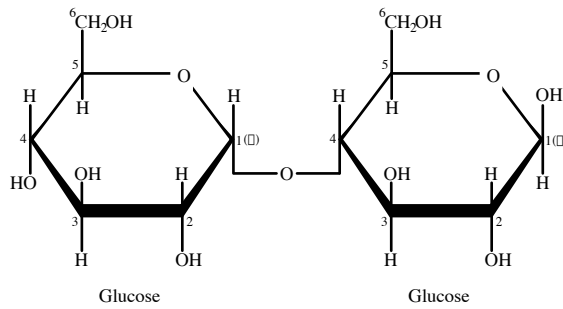

**Sucrose**

Non-reducing sugar; hydrolyzed by invertase.

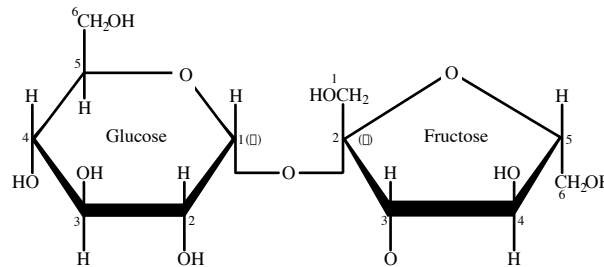

**Raffinose**

Non-reducing sugar;  $\alpha$ -fructofuranoside;  
Hydrolyzed by invertase.

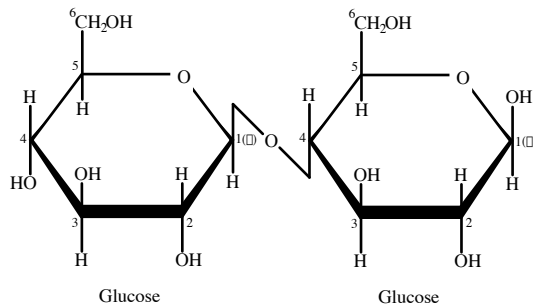

**Maltose**

Reducing sugar;  $\alpha$ -glucoside;  
Not hydrolyzed by invertase.

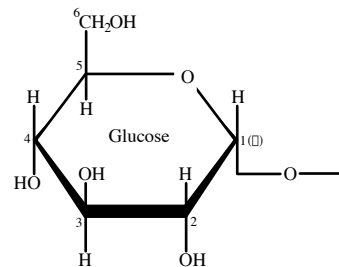

**Melezitose**

Non-reducing sugar;  
substituted  $\alpha$ -fructofuranoside;  
Hydrolyzed by invertase.

**Cellobiose**

Reducing sugar;  $\beta$ -glucoside;  
Not hydrolyzed by invertase.

**Sucralose**

Reducing sugar; Sucrose analog;  
Not hydrolyzed by invertase.
